## **PURPOSE OF THE PARENT INFORMATION NETWORK**

The intent of the Parent Information Network is to provide parents with necessary information so they can more actively participate in their child's special education program and to improve parent/school relationships for the benefit of all students.

## **PARENT INFORMATION NETWORK SPECIALISTS (PINS)**

PINS are consultants who provide on-site and phone consultation, training, resources, and information and referrals to support parents of special education students. PINS also assist educators and service providers to meet the needs of parents and they encourage them to work with parents as equal partners.

The Parent Information Network maintains a database of disability awareness resources. To keep this file current let us know about programs not included in this guide. We would also like to hear about the programs(s) used in your school district or through your organization. Please contact:
